

Glenellen Solar Farm

Community Update

GLENELLEN SOLAR FARM COMMUNITY GRANT PROGRAM

Global Power Generation (GPGA) is pleased to announce the launch of the Glenellen Solar Farm Community Grant Program. As part of our commitment to benefit sharing, \$100,00 will be reinvested into community-led projects that make your area stronger, greener, and more connected.

We're inviting applications from all corners of our community—including (but not limited to):
Education and Youth Programs Environmental and Sustainability Projects
Arts and Culture Initiatives Public Health and Wellness
Local Business and Economic Development Social Equity and Inclusion

A call for applications will be announced in the coming weeks.

Previous grants at some of our other renewable projects include bus storage shed for a school, marquee for a sporting club, upgrade to sporting club facilities, installing accessibility ramp

COMMUNITY GRANTS COMMITTEE

To ensure transparency and fairness in how grants are awarded, we are forming a local Community Grant Committee.

We're seeking community-minded volunteers to help guide the selection of grant recipients.

Committee members will, meet periodically to review grant applications, help set the selection criteria and evaluate and award grants. The full commitment should be 4 evening meetings of approximately 1.5 to 2 hours.

The committee will comprise of two GPG and one Council representative none of which will have voting rites and a number of (7-7) community volunteers.

If you are passionate about sustainability, local development, education, the arts, or simply want to give back, your voice matters.

Why Join?

Help shape the future of our community and promote transparency and inclusiveness in local grant funding

If you're interested in serving on the committee or want more details, please reach out by email or phone using the contact details below.[]
