Since our April 2025 newsletter, we note the following project updates:

- **Environment Effects Statement:** With the help of their consultants, the project team is preparing the EES and intends to lodge the EES application in 2026.
After the EES is lodged, it will be publicly exhibited. This is a point of formal consultation in the EES process, giving you the opportunity to lodge a submission in response to the EES. An EES consultation plan outlining GPGA's approach to consultation during the EES process has been prepared and is available on both Darlington Wind Farm and DTP's websites.
- **Community Benefits Framework:** GPGA has prepared a draft framework to inform a Community Benefits Sharing program. The framework was shared with the community in April 2025, and further consultation will be undertaken before it is finalized.
- **Upcoming Events:** GPGA is hosting two further drop-in sessions in September to share the findings from the technical studies and invite your input on the proposed community benefit initiatives.

Upcoming Drop-In session

Community drop-in sessions will be held at Noorat and Mortlake on 16th and 17th September 2025 to share information about the project and the EES process.

Alongside GPGA, representatives from Ecology and Heritage Partners, Tract, and Marshall Day will be available to discuss the project and answer your questions.

Date: Tuesday, 16th Sept 2025

Time: 4:00 PM – 7:00 PM

**Venue: Noorat Community Centre,
Mackinnons Bridge-Noorat Rd, Noorat VIC 3256**

AND

Date: Wednesday, 17th Sept 2025

Time: 4:00 PM – 7:00 PM

**Venue: Mortlake Recreation Reserve,
99A Officer St, Mortlake VIC 3272**
